

**Seeking Medical Consultation
when You have Symptoms of a Fever or Cold
<Changes After 11/16!>**

If you have the symptoms of a cold or fever, **please call a nearby primary care doctor.** Please do not visit without having contacted the medical institution first.

If you are unsure of what medical institution to visit, please call the “Medical Consultation Center.”

※For general questions or consultation regarding the coronavirus, please continue to contact the general consultation window.
